

SILVERADO BELMONT HILLS COVID-19 UPDATE

DECEMBER 11, 2020

Dear Family and Friends,

We are following the Department of Public Health's direction regarding testing of all associates and residents who have not previously tested positive for COVID-19. We have tested about 50% of the residents and associates and we have no positive results for COVID-19. This is great news. We will notify you immediately of any positive test results or change in condition that occurs with your loved one.

This continues to be a reminder that this virus remains active in the greater public. We must continue to practice proper social distancing and wearing masks while around others in our personal lives.

We are required to complete two rounds of COVID-19 testing and have all residents and associates test negative for COVID-19, before we can consider any visits.

We are waiting to hear about our dates for the vaccine to be given to our associates and residents. If you do not want your loved one who lives at Silverado to receive the vaccination, please email Glynis or me and we will not include them. Glynis.Marcantel@silverado.com we may need an authorization form from each responsible party of our residents. We will advise you once we receive further information.

Recently I sent information on a PIN from Dept. of Social Services, it may have had a broken link. I am including again:
