

SILVERADO BELMONT HILLS COVID-19 UPDATE

January 29, 2021

Dear Family and Friends,

I am pleased to announce that our vaccine clinic dates have been confirmed with the CVS On-Site Vaccine COVID-19 Team.

- Clinic #1 Sunday, January 31, 2021 from 10:00 am – 4:00 pm
This is 1st vaccine for all residents and associates who signed up
- Clinic #2 Sunday, February 21, 2021 from 10:00 am – 4:00 pm
This is 2nd vaccine for all residents and associates who received the 1st vaccine on 1/31/21 and anyone who did not receive the first vaccine.
- Clinic #3 Sunday, March 14, 2021 from 10:00 am – 4:00 pm
Final vaccine only for 2nd (final shot) for residents and associates

We are beyond pleased that we will be offering the first Pfizer vaccine to our residents and associates this Sunday, January 31, 2021.

Many directors, including Glynis Marcantel, RN., and myself, will be on site for our clinics and we have some home office support staff coming to assist. We will follow CDC guidelines and monitor all residents and associates for signs and symptoms of adverse reaction. If anyone has a reaction to the vaccine, we will be in touch with their family.

Thank you all for your continued patience as all our associates are hands on with our residents to care for their needs. This includes our engagement associates, directors, and maintenance staff and always our caregivers and nursing.

We continue to follow San Mateo County Public Health guidelines and are testing all residents and associates weekly. If a resident tests positive for the COVID virus, we are contacting the resident's responsible party.

I will update you next week on the outcome of our first Covid vaccine clinic. I know it's the next step in our journey through this pandemic.

With Love and Gratitude,

Joan Newman
